## **First Choice Computers Refund Policy**

First Choice Computers is here to support you in all the areas you need, so if a product we sell is not up to your satisfaction we will refund the money on that product or make every effort to replace or customize it to meet your satisfaction. We have a full 30-day refund policy in place that complies with the Consumer Rights Act of 2015. We do not actually sell merchandise per say, but provide commercial networks and telecommunication services. But any of the items we need and use to do that work for you including computers, printers and routers, gateways and firewalls that we build or customize for you is all subject to our policy. We are here to support your needs for the long haul so we will refund any item you're not happy with and try to accommodate your needs by any means necessary.
